

Advanced ACT! Training

Location

Training Courses can either take place in our offices, or at a location of your choice.

Format

Advanced training courses typically last a full day, with a “learning by doing” approach.

The trainer starts with a demonstration of the software features that are going to be learnt so that trainees gain an understanding of the end result they are aiming for and the steps necessary to get there. After the demonstration, the training is “hands-on” to provide trainees with progressive practice in using functions of the software.

- In order to reduce “background noise” and promote learning, it is strongly recommended that a separate room is used for the training course(s).
- We recommend that a maximum of four people attend each training course to maximise the benefit each individual will get from the session.
- If requested early enough in advance, the trainer may be able to bring some laptops if sufficient PCs can not be made available in the training room.
- Training courses can be tailored to meet your specific requirements – please contact us to discuss content, duration and cost.

- The training course price and expense charges included in this document are valid until 31st July 2009 and are subject to VAT at current rates.
